# DR. HENDRICK,

Dr. Hendrick is as well educated, as well read in medicine, as well prepared for his profes-sion, has as good success, and bas as good a practice, as any other physician in the county, No other is more widely or more generally accepted. Nor is there any other who is better to be depended upon in the worst and most difficult cases. He is the quickest and surest in breaking up a fever. He is the safest, for he neither kills nor injures any by overdosing them, and he has saved a large number whom other physicians were losing. Hels the best mid-wife. He is also the best in the treatment of female complaints, liver, lung, and kidney diseases, and piles. There are numerous incidents on every hand which stand as incontrovertible facts. And when you call upon him you do not have to pay 50c. you call upon him you do not have to pay 50c. or more for a prescription and then go to a drug store and buy your medicine. You can save the price of the prescription every time and get what will answer the purpose better. It is not necessary that you should pay so much for a small piece of paper with something written on it that was probably taken from a book. The most ridiculous thing in medicine is a young practitioner asking such prices simply for a prescription for older men's brains. You want to get your medicines of one brains. You want to get your medicines of one who keeps his own medicines on hand and who knows by actual test what they are, then you obtain them at better rates, and can with more certainty depend upon them. You always find Dr. Hendrick fully prepared and ready for

what is needed.
